DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9, 11-13, 15-19 and 21-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Nigro 3,601,290.

Nigro shows an actuator for an aerosol container comprising a base 4, nozzle 16 and actuator button 26 rotating from a locked to unlocked position (see abstract).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stirling, Knickerbocker and Walters et al are cited to show further examples of actuators having a lock.
